The 22nd SJM Scholarship Award Ceremony Opens a New Chapter in Local Talent Development

Recognising Outstanding Students and Inspiring Youth to Contribute to Macau's Future

(Macau, 11 August 2026) SJM Resorts, S.A. ("SJM") has been committed to local talent development and supporting Macau's youth for six decades. Yesterday, the Company held the 22nd SJM Scholarship Award Ceremony at the Grand Ballroom of Grand Lisboa Macau, presenting scholarships of MOP20,000 each to 36 outstanding children of employees in recognition of their academic excellence. The ceremony was attended by Ms. Daisy Ho, Managing Director of SJM, Ms. Angela Leong, Director of SJM and Chairman of the SJM Staff Welfare Consultative Committee, and Dr. Rui Cunha, Secretary-General of SJM, together with scholarship recipients and their families, to celebrate the achievements of Macau's younger generation.

Aspiring Youth with a Commitment to Macau and the Nation

Now in its 22nd year, the SJM Scholarship is the longest-running and most far-reaching educational support programme among Macau's integrated tourism and leisure enterprises. To date, the programme has benefited hundreds of employee families across Macau.

This year's 10 new scholarship recipients have all chosen to pursue higher education in Macau, Hong Kong or Mainland China, reflecting both their confidence in the nation's development prospects and their aspirations to grow within the region. Their chosen fields of study span key disciplines including technology and innovation, healthcare, and financial services, aligning closely with the long-term development strategies of both the nation and Macau, while helping build a strong talent pipeline for the city's economic diversification.

Nurturing Talent for Macau's Future

In her speech, Ms. Daisy Ho, Managing Director of SJM, remarked that the scholarship was more than an academic award — it also represented the Company's hopes for each recipient's future. She encouraged the students to stay curious, work hard, and strive for excellence, turning their knowledge into meaningful action. She also called on the students to give back to their community after graduation, and to play their part in Macau's continued prosperity and the nation's development.

Scholarship recipient Cheng Lok In expressed gratitude for the recognition, saying that the scholarship affirmed his past efforts and gave him greater confidence to pursue his goals. He will soon begin his dental studies in Hong Kong, and hopes to return to Macau

after graduation to apply his expertise in digital dentistry and oral health education, contributing to the development of Macau's healthcare services.

Building a Diverse Talent Pipeline for the Future

SJM's commitment to local talent development extends far beyond its scholarship programme. Over the years, the Company has established a comprehensive pathway from education to employment through a wide range of initiatives, including school-enterprise partnerships, youth internship programmes, professional training opportunities and career advancement schemes. These efforts provide valuable development opportunities for employees' children and local youth while supporting Macau's transformation.

Looking ahead, SJM will continue investing in local talent, helping Macau's young people reach their full potential and contribute to the city's long-term diversified and sustainable development.
