SJM Summer Programme Attracts Over 900 Participants

An Enriching and Fun-filled Summer for Team Members' Children

(Macau, 8 September 2026) — SJM Resorts, S.A. (“SJM”) continues to foster a family-friendly corporate culture while encouraging the younger generation to make the most of their summer holidays by broadening their horizons and discovering their potential. The 2026 SJM Team Members’ Children Summer Programme, held from July to August, concluded successfully with 48 complimentary courses and themed activities, attracting more than 900 participants — including team members’ children and the children of their relatives and friends. The overwhelming response underscores the Company’s commitment to supporting team members’ families and nurturing the holistic development of youth.

In response to growing demand in recent years, SJM expanded class capacity to welcome more families. The programme catered to children and teenagers aged 3 to 15, offering a diverse range of activities across six key categories: sports, culinary arts, academic enrichment, creative science, arts and culture, and themed experiential activities. Designed to balance learning, personal growth, and recreation, the programme provided participants with a rewarding and enriching summer experience.

Diverse Courses to Inspire Young Minds

This year’s programme introduced several exciting new offerings. Highlights included an AI Exploration Workshop, where participants gained insights into the real-world applications and development of artificial intelligence through interactive learning, and Pickleball, the fast-rising sport that helps build coordination and teamwork. New courses such as Basic First Aid and Children’s Dining Etiquette were also added under the academic enrichment and arts and culture categories, equipping participants with essential safety awareness and response skills while cultivating good character and personal etiquette.

Beyond the enrichment courses, SJM also organised a range of parent-child experiential activities, featuring cake-making, pottery, junior carpentry and pizza-making workshops, including sessions held at Grand Lisboa Palace Resort Macau. Encouraging families to bond through hands-on experiences, participants created their own pizzas under the guidance of professional chefs from Mamma Pizza and Bamboo Hut, crafted traditional Portuguese tile artworks at GLP Arte, and enjoyed attractions such as the Grand Candy Gala @ Grand Lisboa Palace, featuring a giant inflatable castle, as well as AI Wonderland. Through these engaging activities, families enjoyed a fun-filled and enriching summer together.

SJM places great importance on the wellbeing of its team members and their families, continuously promoting family harmony and wellness through a wide range of meaningful initiatives. Alongside the Summer Programme, the Company regularly organises parenting workshops, family activities, and festive celebrations, and offers a scholarship programme for team members' children. Through these efforts, SJM provides comprehensive care and support for team members and their families, fostering a caring and family-friendly workplace culture while contributing to a harmonious community.
